

SUPERCLEAN RECYCLED HDPE FOR BLOW MOULDING

A large graphic consisting of two thick, 3D-style arrows forming a circle. The top-left arrow is blue and points downwards. The bottom-right arrow is green and points upwards, completing the circle.

EXCLUSIVE CIRCULAR SOLUTION WITH VIRGIN BOOSTER*

RPE 6407

Household

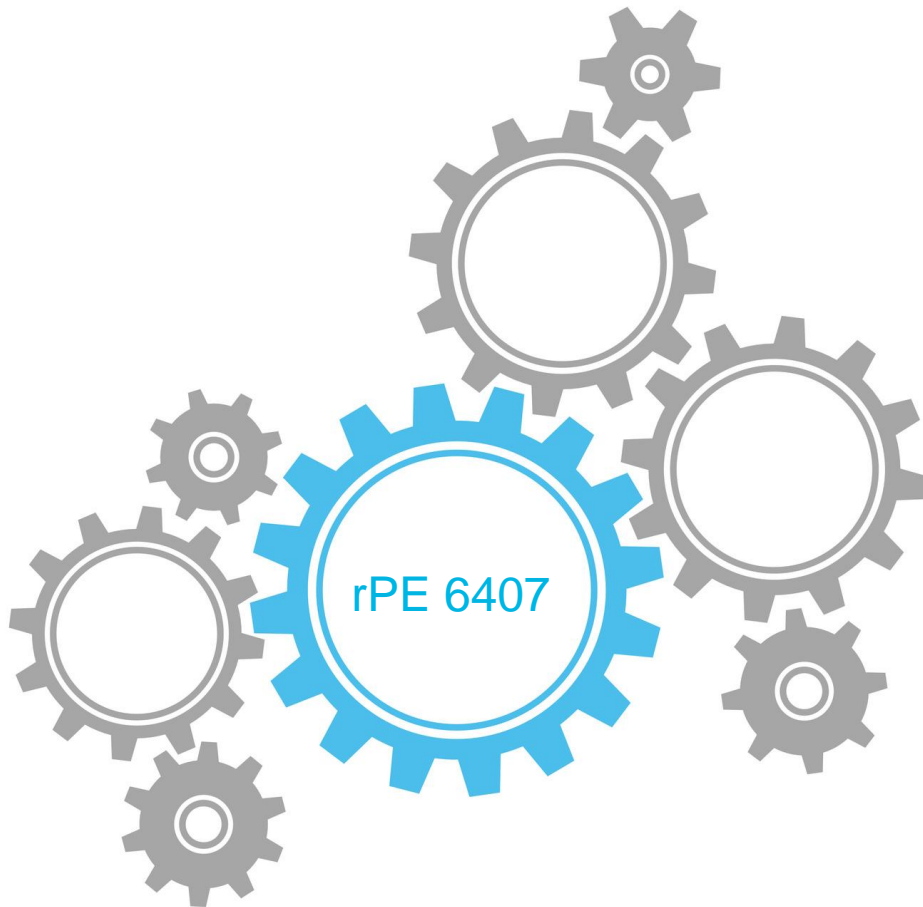

Cosmetics

Industrial

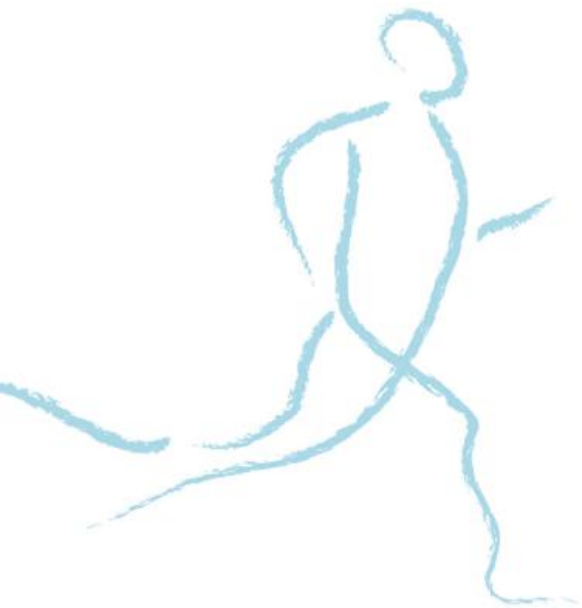

** Specially designed on ADL technology*

Ready-to-use compound composed of :

- *Post Consumer Recyclate $\geq 25\%$*
- *Virgin HDPE booster resin*

Drop in solution !

Guaranteed properties and consistency, virgin-equivalent

Good chemical resistance (suitable for bleach)

Natural colour

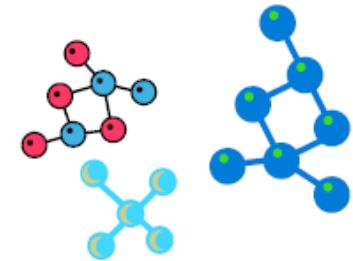

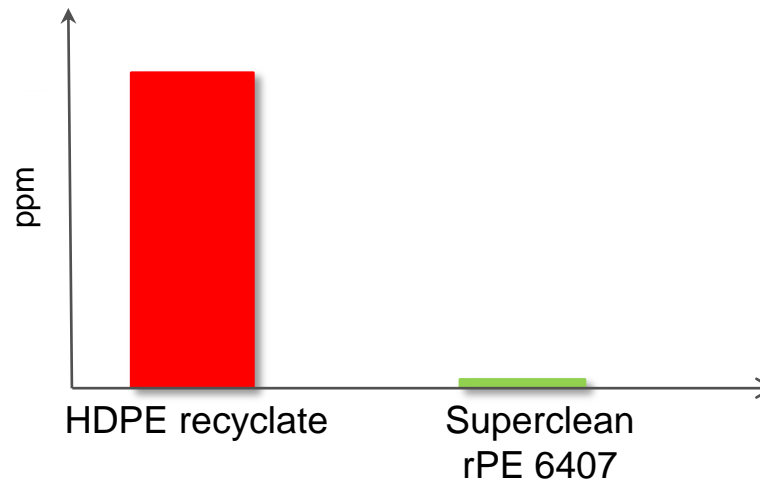

No negative impact on the current recycling chain

Property	Typical value
Density	960 kg/m ³
MFR (190°C/2.16 kg)	0.4 g/10 min
MFR (190°C/21.6 kg)	30 g/10 min
ESCR Antarox 100%	>70h

Proprietary process to provide
superclean rHDPE

Effective removal of odor

Reduction of
>150 times
the concentration of
odorant molecules

50% POST-CONSUMER CONTENT...
